Space Station U.S. Lab safely shipped from Marshall to Kennedy

The International Space Station's U.S. Laboratory Module was safely shipped from the Marshall Center and arrived at the Kennedy Space Center, Fla., on Monday, Nov. 16. The module was transported to the Huntsville Airport where it was loaded into NASA's Super Guppy aircraft for transport to Kennedy.

American Education Week is Nov. 15-21

Exchange Council Congressional staffers visiting nominee deadline, Marshall Center Tuesday 4:30 p.m. Tuesday, contact: 4-7564

Ten congressional staffers representing seven states are visiting Marshall Tuesday. Following a Center overview briefing, the group is to tour various facilities including the Microgravity Development Laboratory, International Space Station mockup, Space Sciences Laboratory and the Global Hydrology and Climate Center at Marshall.

Weiler appointed associate administrator for Space Science

NASA Administrator Dan Goldin Nov. 16 named Dr. Edward J. Weiler as associate administrator for NASA's Office of Space Science, effective immediately. Weiler has served as acting associate administrator since Sept. 28. He will be responsible for overall executive leadership of NASA's Space Science Enterprise.
